DIRECT ACCESS ENDOSCOPY SERVICE

Why ?

To prevent unnecessary consultations and delays and expense for fit patients who have clear cut indications for endoscopy or colonoscopy.

Who is appropriate for direct access endoscopy / colonoscopy ?

Fit patients with clear cut indications can be referred for direct access endoscopy / colonoscopy.

Examples of clear cut indications for colonoscopy include

- IRR
 - oEV
 - oE
 - nEV
- W
R E
EV R E R E
EVA:(E R E

How can patients be referred ?

Fill in the referral form overleaf and fax to (08)72007780 or email admin@adelaidegastro.com

What is the process following referral ?

Dr Wigg will review all referrals. Following this, patients will be contacted by Dr Wigg's staff and given an appointment time. Relevant information sheets will be posted to patients prior to the procedure. These will provide further education and instructions to patients about fasting, medication preparation and recovery. Patients will be consented by Dr Wigg prior to the procedure. All patients will be reviewed by Dr Wigg following the procedure and prior to discharge.

What bowel preparation do patients use and where can they pick this up

Dr Wigg's rooms can organise postage of prep kits

Or you can purchase the following from your pharmacist:

- Two sachets of either Glycoprep or Glycoprep-C or ColonLYTLY or Golytely. Instruction will be posted or emailed to you

Moviprep Kit can be collected from L3 Ashford Specialist Centre, L1 East Adelaide Medical Centre or Glenelg Community Hospital.

What numbers can patients ring for information

Patients who require further information or help can contact Dr Wigg's staff during office hours on 73250068, 0488991778 or anytime via email admin@adelaidegastro.com. Dr Wigg is available via these numbers for after hours or emergency help. Endoscopy and colonoscopy information is also available online at www.adelaidegastro.com

Adelaide Gastro Endoscopic Surveillance Programme

Dr Wigg provides an endoscopic surveillance programme which is run according to evidence based, best practice guidelines.
